

Staff Guide

Meena Radiology Scheduling

Your portal: schedule, leave, swaps and daily cases.

Welcome to your portal

Your personal area lets you see your shifts, request leave, ask to swap a shift, and (if you're eligible) fill the daily case report. Everything you submit is tracked so you always see where it stands.

1. Creating your account

1. Open the sign-up link your manager shared (or click 'New staff? Sign up' on the login screen and enter the invite code).
2. Fill your name, branch, section, Employee ID and email.
3. Choose a username and password — this is your login.
4. Submit. Your team lead approves it, then you can sign in.

You can change your password anytime from the sidebar -> Change password.

2. Your schedule

1. Sign in — you land on My Schedule.
2. Use the arrows to move between months.
3. Your shifts, leave and any swaps show on your calendar.

3. Requesting leave

1. Open Leave and click Request Leave.
2. Pick the dates and the leave type, then submit.
3. Track the status: 'Awaiting team lead' -> 'Awaiting manager' -> 'Approved'.
4. You can Withdraw a request while it's still pending.

Note: there's a cut-off day each month for next-month leave — submit early.

4. Swapping a shift

1. Open Swaps and request a swap, choosing the colleague and the two dates.
2. Your colleague accepts, then your team lead and the manager approve.
3. Once fully approved, the swap is applied to the rota automatically.
4. You can cancel your own request while it's still pending.

5. Daily cases (if eligible)

If you have reporting rights or you're on the Night shift that day, the Daily Cases page lets you fill your branch's report. Enter the numbers and Submit to lock it. If you're not eligible, the form is view-only.

6. Notifications

The bell icon shows updates — when your leave or swap moves a stage, or is approved. If you added an email, you'll also get notified there.
