Manager Guide

Meena Staff Scheduling Platform — features & capabilities

FROM NAFATH ONBOARDING TO DAILY OPERATIONS

What is Meena Scheduling?

Meena is an end-to-end staff scheduling platform for the radiology branches. It covers the full lifecycle: secure staff onboarding with national-identity verification (Nafath), automatic rota generation, leave and sick-leave management with cover suggestions, shift swaps, daily-case reporting, and real-time notifications over in-app, WhatsApp and email. This guide walks a manager through every capability with screenshots from the live platform.

Verified onboarding

Nafath identity +
WhatsApp + email

Smart scheduling

Auto-generate, fill-blanks,
cross-branch cover

Leaves & cover

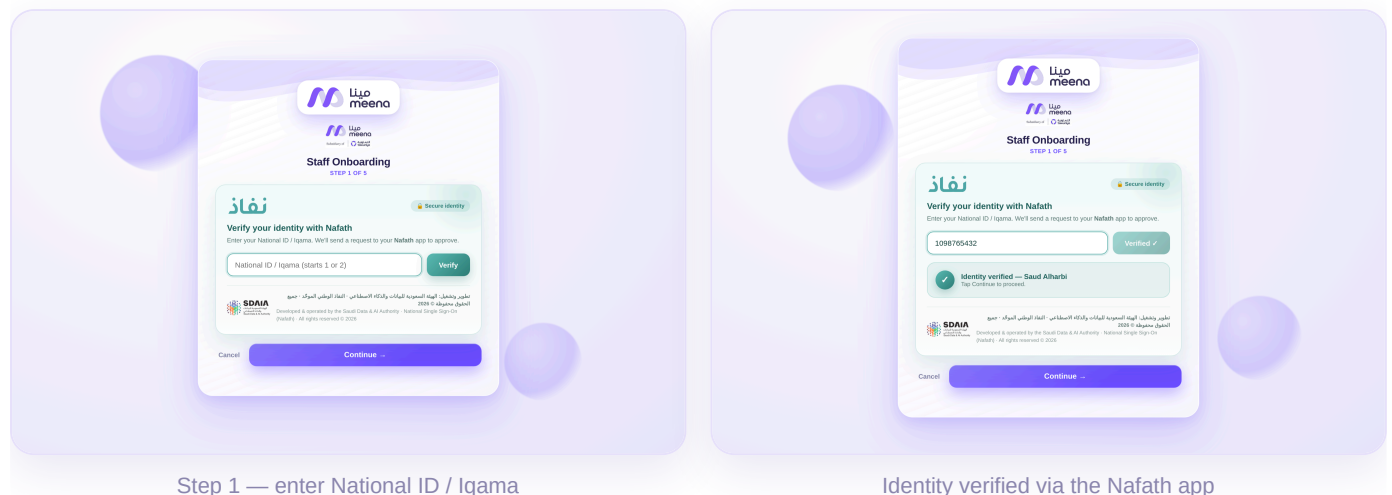

Approvals + same-
branch-first suggestions

Live notifications

In-app · WhatsApp · email

1 Secure onboarding with Nafath

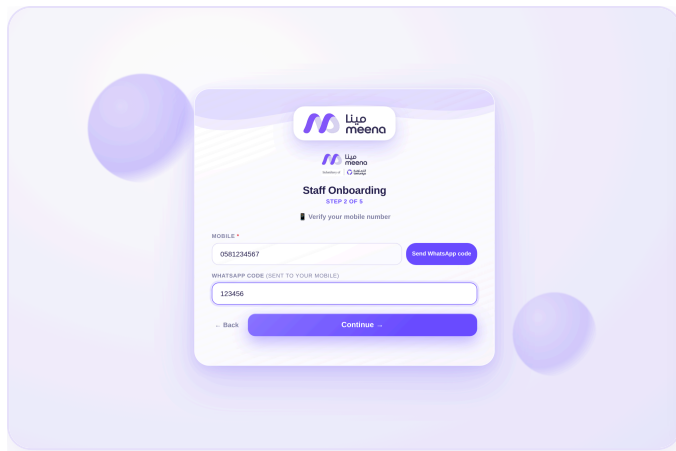

New staff verify their real identity through Nafath (the Saudi national single sign-on) before an account is created — no manual invites or codes to share.

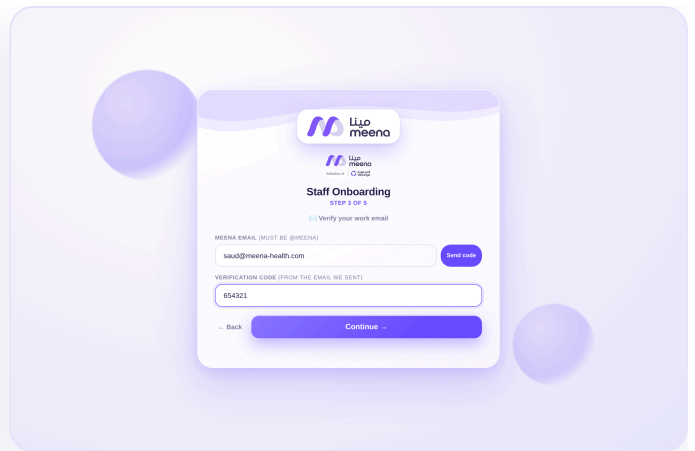

2 A guided, step-by-step sign-up

Onboarding is a clean wizard — each step is verified before the next. Identity, then mobile, then email, then details, then login.

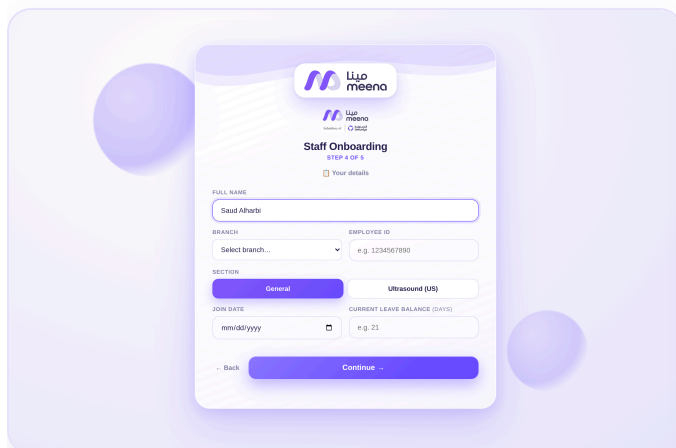

- Mobile number confirmed with a one-time code sent over WhatsApp.
- Work email confirmed with a 6-digit code (must be an @meena address).
- The official name comes straight from Nafath and is locked in.
- On the final step the account is created and the staff member is signed in instantly — no approval needed.

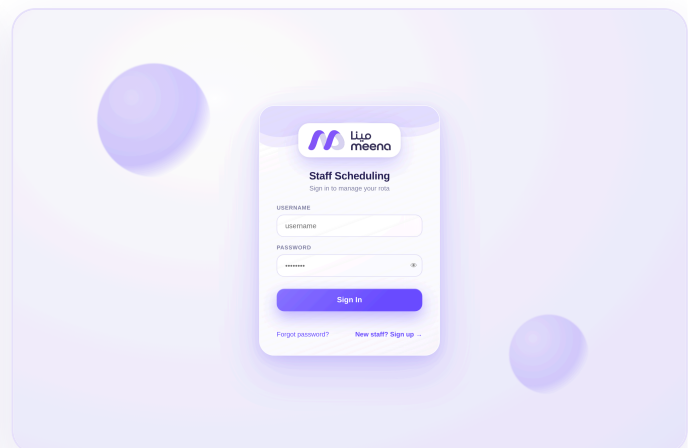

Mobile verified via WhatsApp

Work-email verification

Details — name pre-filled from Nafath

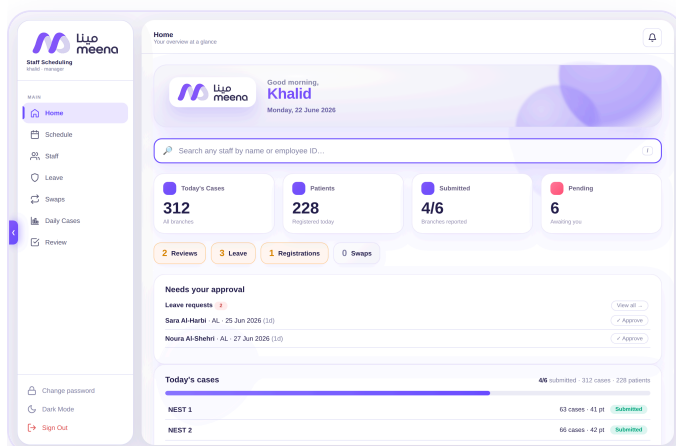

Secure sign-in

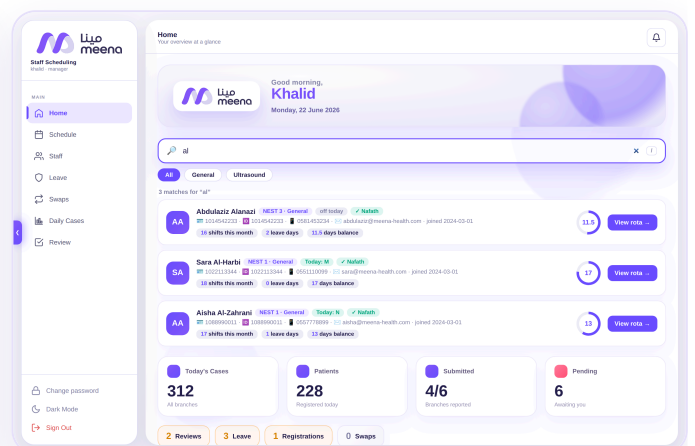

3 Manager home & instant staff search

The home screen surfaces what needs attention and lets a manager find any staff member by name or ID in one box.

- At-a-glance tiles: today's cases, patients, branches reported, items awaiting you.
- Search returns the person's branch, section, contact, shifts this month, leave taken and live leave balance.
- A ✓ Nafath badge shows the identity was verified; quick General/Ultrasound filters.
- Jump straight to a staff member's rota with one click.

Instant staff search with live details

4 Leave management & approvals

Leave requests flow through the right approvers (team lead → manager). Pending items are grouped and actionable.

- Annual, sick and time-back requests in one place, with status and day counts.
- Approve directly, or open for review; coverage gaps are flagged before approval.
- Leave balances accrue automatically (22 days/year) from each staff member's recorded balance.

The screenshot shows the 'Leave Management' section of the Meena Staff Scheduling system. The interface includes a sidebar with navigation options: Home, Schedule, Staff, Leave (selected), Swaps, Daily Cases, and Review. The main content area displays a table of leave requests for the year 2026, filtered by 'All months'. The table has columns for #, STAFF, BRANCH, FROM, TO, DAYS, TYPE, STATUS, NOTE, and ACTIONS. Three requests are listed: Sara Al-Harbi (Annual Leave, Awaiting Team Lead), Mohammed Al-Otaibi (Sick Leave, Approved), and Noura Al-Shehri (Annual Leave, Awaiting Team Lead). The interface also features a 'Time-back' button, an '+ Add Leave' button, and a bell icon for notifications.

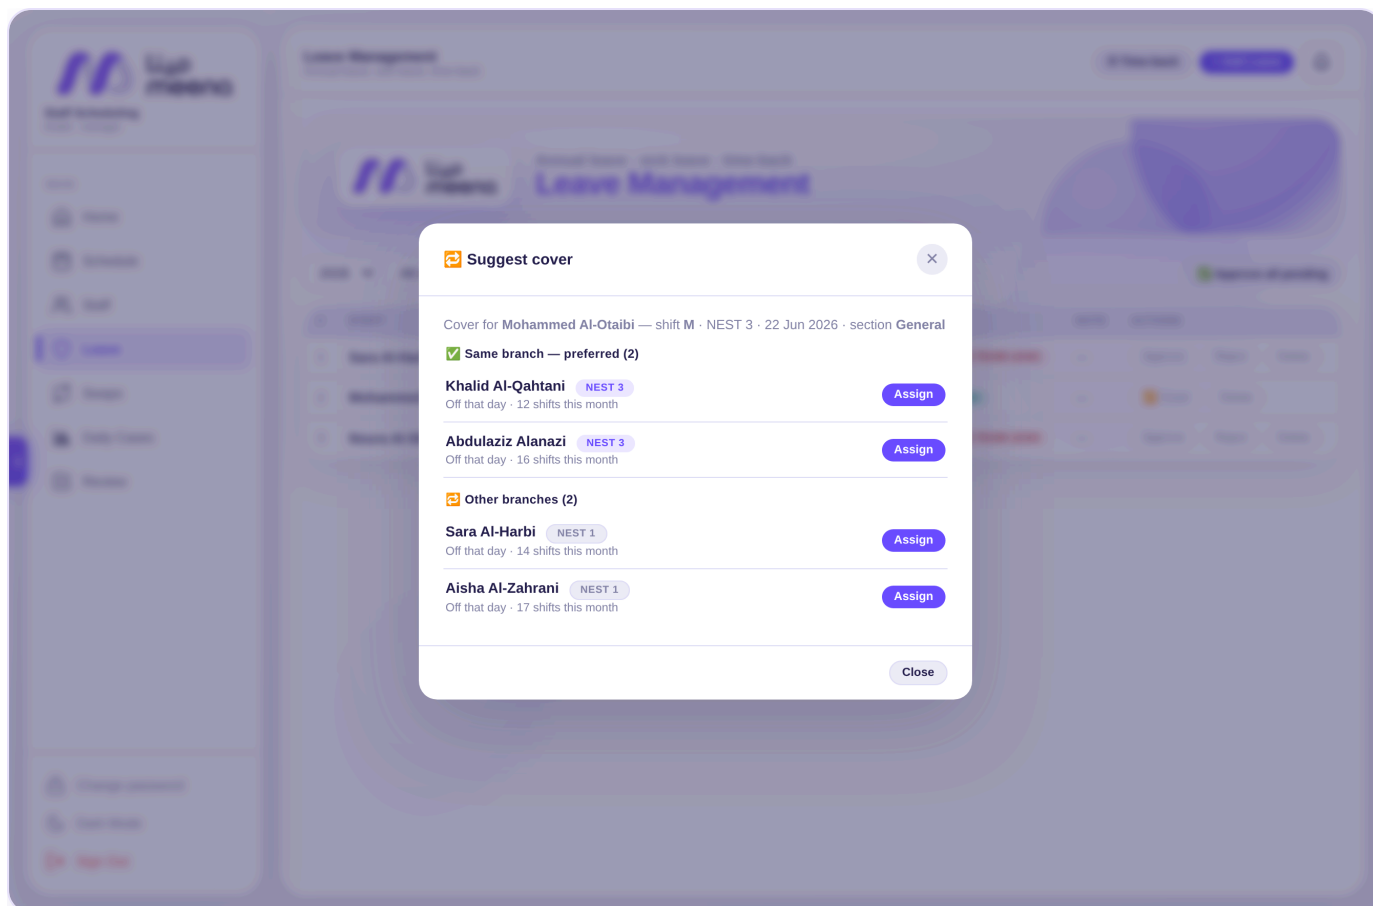

#	STAFF	BRANCH	FROM	TO	DAYS	TYPE	STATUS	NOTE	ACTIONS
1	Sara Al-Harbi	NEST 1	25 Jun 2026	—	1	AL Annual Leave	AWAITING TEAM LEAD	—	Approve Reject Delete
2	Mohammed Al-Otaibi	NEST 3	22 Jun 2026	—	1	SL Sick Leave	APPROVED	—	Cover Delete
3	Noura Al-Shehri	NEST 3	27 Jun 2026	—	1	AL Annual Leave	AWAITING TEAM LEAD	—	Approve Reject Delete

Leave management

5 Sick-leave cover suggestions

When someone calls in sick, the platform instantly suggests who can cover that exact day and shift — same branch first, then other branches.

- Only free, same-section staff are suggested for the missing shift (e.g. Morning / Night).
- Grouped as Same branch — preferred, then Other branches, lightest workload first.
- One tap assigns the cover onto the covering staff member's own rota.

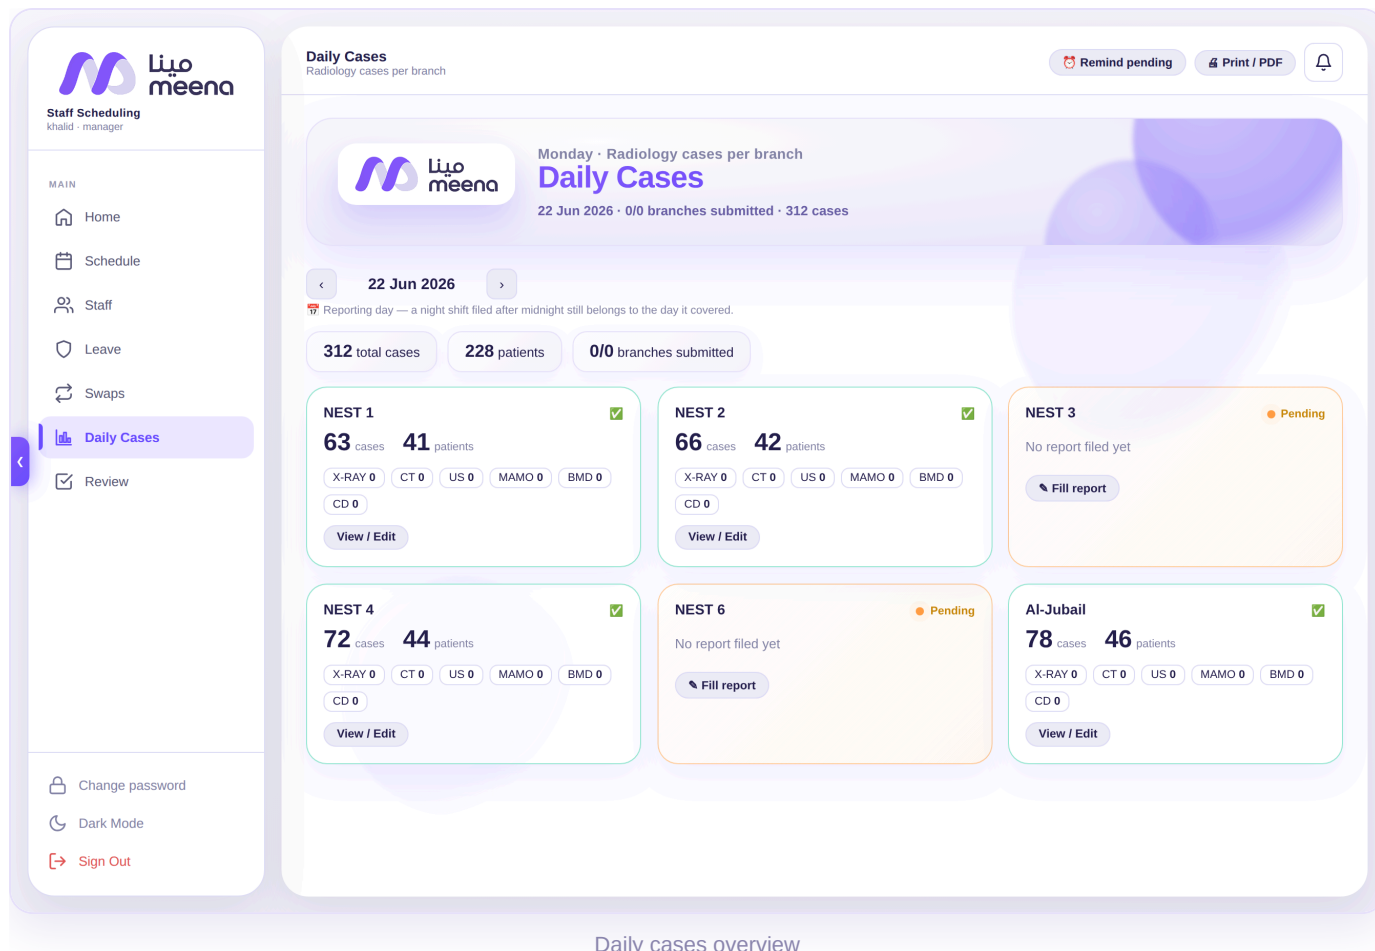

Cover suggestions — same branch first, then others

6 Daily cases & reporting

Each branch submits its daily case counts; managers see completion and totals across all branches in real time.

- Per-modality counts (X-ray, CT, US, mammo, BMD...) plus patient totals.
- Branches that haven't submitted are reminded automatically.
- Live progress: how many branches have reported today.

Daily cases overview

7 Notifications — in-app, WhatsApp & email

Staff and managers are kept in the loop on the channels that matter, tuned to stay high-signal.

- Staff get WhatsApp + in-app alerts for: leave approved/rejected, swap updates, cover assignments, and account activation.
- Managers & team leads are alerted for items awaiting their approval (leave, time-back, swaps, schedules).
- Low-value noise is deliberately suppressed so the important alerts stand out.
