

Meena Scheduling

Project Overview

An all-in-one platform for the radiology department's monthly rota, approvals, leave, shift swaps and daily case reports — replacing scattered Excel files and chat groups with one secure system.

OVERVIEW

One live dashboard

Today's cases, patients, submissions and pending actions at a glance — the whole department in one screen.

ROTA

Auto-built rota

A smart engine builds the monthly rota respecting shifts and approved leave; edit any cell, then submit for approval.

The screenshot displays the Lilo meena Staff Scheduling application interface. The left sidebar contains navigation options: Home, Schedule (selected), Staff, Leave, Swaps, Daily Cases, Review, Branches, Shift Types, Users, and Audit Log. The main content area shows the 'Monthly staff rota Schedule' for June 2026. It includes a calendar grid with staff names (Aisha Al-Zahrani, Khalid Al-Qatani, Mohammed Al-Otaibi, Noura Al-Shehri, Reem Al-Dosari, Sara Al-Harbi) and their assigned shifts. The grid uses color-coded cells to represent different shift types: Mt (Morning), N (Night), D (Day), D1 (Day 1), EV (Evening), A (Afternoon), B (Before), C (Evening), R (Night), R1 (Night 1), Overtime, D_US (Day US), and OC (On-Call). The interface also features a 'Generate' button, 'Settings', 'Export XLSX', 'Export PDF', and 'Print' options. A 'Locked' status is indicated, and a message states 'You can edit this as a manager'. The total number of shifts assigned is 110, and there are 23 leaves. The interface is designed to be user-friendly and efficient for managing staff schedules.

The screenshot shows the Meena Leave Management interface. On the left is a sidebar with a navigation menu. The main content area displays a table of leave requests with columns for staff, branch, dates, days, type, status, note, and actions.
